CONTENTS

VOLUME 49

<i>Aharoni, R. and Hajnal, P.</i> , Transversals for ordinal intervals	291
<i>Alon, N.</i> , Monochromatic directed walks in arc-colored directed graphs	163
<i>Al-Budaiwi, A. and Mazhar, S. M.</i> , An estimate of the rate of convergence of the conjugate Fourier series of functions of bounded variation	377
<i>Берман, Д. Л.</i> , Исследование сходимости расширенного интерполяционного процесса Крылова—Штаермана	325
<i>Bhatta, P. S. and Malliah, C.</i> , On lattices whose congruences form Stone lattices	385
<i>Bisztriczky, T. and Schaer, J.</i> , Affinely embeddable convex sets	353
<i>Bogmér, A. and Sövegjártó, A.</i> , On universal functions	237
<i>Bognár, M.</i> , On axiomatization of the theory of linking	3
<i>Boyadzhiev, H. N.</i> , An asymptotic Fuglede theorem for generators of C_0 groups	145
<i>Brindza, B.</i> , On the equation $F(x, y) = z^m$ over function fields	267
<i>Buczolich, Z.</i> , On universal functions and series	403
<i>Chak, A. M. and Szabados, J.</i> , On $(0, 2)$ interpolation for the Laguerre abscissas	415
<i>Choy, S. T. L.</i> , Vector-valued idempotent measures	151
<i>Császár, Á.</i> , Proximities, screens, merotopies, uniformities. I	459
<i>Dhompongsá, S.</i> , Almost sure invariance principles for the empirical process of lacunary sequences	83
<i>Dryanov, D. P.</i> , On the convergence and saturation problem of a sequence of discrete linear operators of exponential type in $L_p(-\infty, \infty)$	103
<i>Duong Thuy Vy</i> , A fifth-order iterative method for solving equations	129
<i>Elbert, Á.</i> , On the half-linear second order differential equations	487
<i>Erdélyi, T.</i> , Pointwise estimates for the derivatives of a polynomial with real zeros	219
<i>Erdős, P., Pomerance, C. and Sárközy, A.</i> , On locally repeated values of certain arithmetic functions. II	251
<i>Fugelo, N. A. and Varbanec, P. D.</i> , On a trigonometric sum and its application	339
<i>Gallai, T.</i> , Signierte Zellenzerlegungen. II	185
<i>Göndöcs, F. and Michaletzky, G.</i> , A note on invariant measures	455
<i>Hajnal, P. and Aharoni, R.</i> , Transversals for ordinal intervals	291
<i>Helms, L. L.</i> , Biharmonic functions with prescribed fine normal derivative on the Martin boundary	139
<i>Hermann, T., Kis, O. and Vértesi, P.</i> , On certain rational interpolatory operators	29
<i>Joó, I.</i> , On the reachability set of a string	203
<i>Kaczorowski, J. and Pintz, J.</i> , Oscillatory properties of arithmetical functions. II	443
<i>Kataoka, T., Sato, R. and Suzuki, H.</i> , Differentiation of superadditive processes in L_p	157
<i>Kis, O., Hermann, T. and Vértesi, P.</i> , On certain rational interpolatory operators	29
<i>Kiventidis, T.</i> , Une contribution à la stabilité des équations différentielles ordinaires dans les espaces localement convexes	335
<i>Komornik, V. and Tiba, D.</i> , On the control of strongly nonlinear hyperbolic systems	261
<i>Kôno, N.</i> , On generalized Takagi functions	315
<i>Laczkovich, M. and Pokorný, I.</i> , Selective and bi-selective derivatives	433
<i>Maksa, Gy.</i> , The general solution of a functional equation arising in information theory	213
<i>Malliah, C. and Bhatta, P. S.</i> , On lattices whose congruences form Stone lattices	385
<i>Márkus, L.</i> , Radon—Nikodym derivative in the case of a random Schrödinger-type equation ..	277
<i>Mazhar, S. M. and Al-Budaiwi, A.</i> , An estimate of the rate of convergence of the conjugate Fourier series of functions of bounded variation	377

<i>Michaletzky, G. and Göndöcs, F.</i> , A note on invariant measures	455
<i>Móricz, F. and Tandori, K.</i> , Counterexamples in the theory of orthogonal series	283
<i>Muneer, Y. E.</i> , On Lagrange and Hermite interpolation. I	293
<i>Nanda, S.</i> , Strongly almost summable and strongly almost convergent sequences	71
<i>Nagy, B.</i> , Spectral measures with singularities	51
<i>Pintér, F.</i> , A Jackson-type estimation on the real line by interpolation	241
<i>Pintz, J. and Kaczorowski, J.</i> , Oscillatory properties of arithmetical functions. II	443
<i>Pokorný, I. and Laczkovich, M.</i> , Selective and bi-selective derivatives	439
<i>Pomerance, C., Erdős, P. and Sárközy, A.</i> , On locally repeated values of certain arithmetic functions. II	251
<i>Rayar, Mary</i> , A note on small rings	381
<i>Rostický, J.</i> , Multiplicative lattices and frames	391
<i>Sárközy, A., Erdős, P. and Pomerance, C.</i> , On locally repeated values of certain arithmetic functions. II	251
<i>Sárközy, A.</i> , On the distribution of residues of products of integers	397
<i>Sato, R., Kataoka, T. and Suzuki, H.</i> , Differentiation of superadditive processes in L_p	157
<i>Schaer, J. and Bisztriczky, T.</i> , Affinely embeddable convex sets	353
<i>Schmidt, E. T.</i> , On locally order-polynomially complete modular lattices	481
<i>Sebestyén, Z.</i> , Operator moment theorems for C^* -algebras	65
<i>Simon, P.</i> , Strong convergence of certain means with respect to the Walsh—Fourier series	425
<i>Sobolev, V. A.</i> , Decomposition of linear singularly perturbed systems	365
<i>Sövegjártó, A. and Bogmér, A.</i> , On universal functions	237
<i>Suzuki, H., Kataoka, T. and Sato, R.</i> , Differentiation of superadditive processes in L_p	157
<i>Szabados, J. and Chak, A. M.</i> , On $(0, 2)$ interpolation for the Laguerre abscissas	415
<i>Tandori, K. and Móricz, F.</i> , Counterexamples in the theory of orthogonal series	283
<i>Tiba, D. and Komorník, V.</i> , On the control of strongly nonlinear hyperbolic systems	261
<i>Tzintzis, G.</i> , An almost subidempotent radical property	173
<i>Tzintzis, G.</i> , A one-sided admissible ideal radical which is almost subidempotent	307
<i>Varbanec, P. D. and Fugelo, N. A.</i> , On a trigonometric sum and its application	339
<i>Varma, A. K.</i> , A new characterization of Hermite polynomials	169
<i>Vértesi, P., Hermann T. and Kis, O.</i> , On certain rational interpolatory operators	29
<i>Yoneda, K.</i> , A note on convergence of Walsh—Fourier series of a function on a class V_α	77
<i>Zieba, W.</i> , On some properties of a set of probability measures	349
